Bible Study (biblestudy.eunccu.org) User Testing Guide

UI & UX Testing Instructions for Test Users

Thank you for helping us test the **Bstudy platform**.
Your role is to use the system as a normal user would and give honest feedback on what works well and what does not.

Please focus especially on the areas highlighted below.

1. Your Goal as a Tester

As a tester, your goal is to:

- Use Bstudy naturally, without guidance
- Identify anything that is confusing, unclear, or incorrect
- Confirm that information shown is accurate
- Suggest improvements where the experience feels difficult

There are **no right or wrong actions** — we are testing the system, not you.

2. Start With Registration & Profile Setup

Please begin by:

- Creating an account
- Completing your profile fully

Focus on:

- Are the instructions clear?
- Do you understand what each field requires?
- Are error messages helpful?
- Can you complete the process without help?

Let us know if any step feels confusing or unnecessary.

3. Residency & Location Information (VERY IMPORTANT)

This is one of the most important areas to test.

Please carefully test the following:

A. Residency Type

Select either:

- **Campus**
- **Off-Campus**

Ensure the system responds correctly to your choice.

B. Campus Residents

If you choose **Campus**:

- Confirm that the **hall options are correct**
- Check that you can only select valid halls
- Ensure no off-campus fields appear

C. Off-Campus Residents

If you choose **Off-Campus**:

- Select an **area**
- Confirm that **estate options update correctly**
- Test the **"Other Estate"** option (if available)
- Ensure you cannot proceed without completing required fields

Report any wrong areas, missing estates, or confusing options.

4. Group Assignment & Group Information (HIGH PRIORITY)

After completing registration:

- Confirm that you are assigned to the **correct group**
- Check that your **group name** is accurate
- Confirm the **group leader's name and contact details**
- Verify that the **member count looks correct**

Please focus on:

- Is it clear which group you belong to?
- Is group information easy to find?
- Is any important group detail missing?

5. Dashboard Experience

Spend time on your dashboard and observe:

- How easy it is to understand at first glance
- Whether information feels well-organized
- Whether anything feels overwhelming or unclear

You should easily identify:

- Your group
- Your current study status
- Your current semester
- Your reflection status

Tell us if anything important is hard to find.

6. Navigation & Buttons

As you move through the platform:

- Use the sidebar links
- Click buttons and action links
- Move between pages

Focus on:

- Do buttons do what you expect?
- Are labels clear?
- Do you ever feel "stuck" or lost?

7. Visual Design & Usability

Please observe:

- Font size and readability
- Color contrast
- Spacing and layout
- How the platform looks on your device

Report anything that feels visually uncomfortable or confusing.

9. How to Share Feedback

When reporting an issue, please include:

- Page name

- What you were trying to do

- What happened instead

- What you expected to happen

Screenshots are highly appreciated where possible.

10. Final Notes

Your feedback directly helps us improve Bstudy before official release.
Even small issues matter — please report them.

Thank you for being part of this testing phase

If you have a comprehensive feedback, kindly send it to eunccu001@gmail.com
